

EXELIA

FLOORING SIMPLIFIED™

WHY EXELIA

Exelia is a cost-effective floor covering made of high-quality plastic resin in compliance with California Prop 65 regulations. Its unique, innovative Multi-Seal System (MSS™) and hidden seams are appealing as it is functional. Exelia's MSS guarantees that once installed, the tiles will lock in place, eliminating any movement and creating a safe surface. The virtually cost-free installation process is a simple do-it-yourself project that gives you the flexibility to customize the tiles to your liking. Exelia requires very little preparation beforehand, and with the simple use of a rubber mallet, you will enjoy your new floor in no time. Simplicity does not end there, for Exelia requires no special maintenance and your tiles will look as new as the day you first installed them.

Fast and easy installation

No gluing or grouting required

Minimal installation cost

Straight seams

Resistant to static and dynamic loads

Ready to be used right away

Good sound absorption

Eco-friendly

Multi-Seal System™

Can be glued together

-  INDUSTRIAL
-  GYMS
-  GARAGES
-  RETAIL STORES
-  PLAYGROUNDS
-  BASEMENTS
-  HACCP ENVIRONMENTS
-  SPORTS ARENAS

With a full spectrum of color options, you can combine the ST and LW tiles for an unlimited design possibility.

EXELIA FLOORING HAS IT COVERED

INDOOR SPORTS ARENAS AND GYMNASIUMS

Your workout is tough, so your flooring should be tougher. Exelia's Multi-Seal System technology locks each tile in place; completely eliminating any movement, all while delivering durability, strength, but easy-on-the-joint properties to help your workout space reach its full potential. Why settle for rubber flooring that absorbs bacteria and creates foul odors, when you can enjoy Exelia's anti-bacterial and resistance advancements – all at a fraction of the cost.

GARAGE

In just a few hours, Exelia is able to drastically improve the look of your garage. Due to its simple installation process, the tiles can be placed down with ease, resulting in ready-to-use, perfect flooring. Simplicity does not end there, for Exelia is easy to clean and requires no special maintenance, making the previous old, dusty floor a distant memory.

INDUSTRIAL

Exelia easily conforms to heavy machinery and in-ground fixtures - supporting static loads, such as equipment and shelving. It can also handle dynamic loads such as forklifts, trucks and pallet jacks. Repairs can be performed in-house and require minimal downtime. Exelia's color selection also gives you the ability to create a safe and organized environment, while its anti-fatigue properties deliver ease on the joints to ensure maximum productivity.

RETAIL

Imagine your logo or business name or even that particular shade of green as part of your flooring. Now you can make a statement with Exelia Flooring. Showrooms with your logo or patterns can optimize floor capacity and reduce clutter. Exelia is ready for your changing business needs and you can rearrange your tiles as often as you like.

INSTITUTIONS

All institutional organizations can benefit from Exelia. Exelia is an ideal solution for daycares, preschools, primary education and higher learning facilities. Starting with durability, traction and ease of maintenance to design and color aesthetics, sound dampening and the lack of harmful chemicals, we know what goes into Exelia and we trust it around our future generations.
